## «Sun is Fun »

Sunêlia is the only chain of camping holiday villages to offer the sun for free and with no formalities !

Interview with Sophie VOIRIN,  
Director of Customer Service Climpact-Metnext

When we started looking over their project, of the Sun Sunêlia offer, we had to establish a basis of specific and very rigorous analysis. We selected as a criterion to analyze the duration of sunshine per day.

We analyze all Sunêlia campsites in the number of daylight hours between 10.00 and 18.00.

We analyze the sunshine on the campsite itself using satellites that provide good local representation with a mileage resolution. The measurement conditions are both rigorous, representative of the campsite, and homogeneous for all the campsites in the group.

**If the sun decides not to show up, Sunêlia may offer you up to 200 €.**
